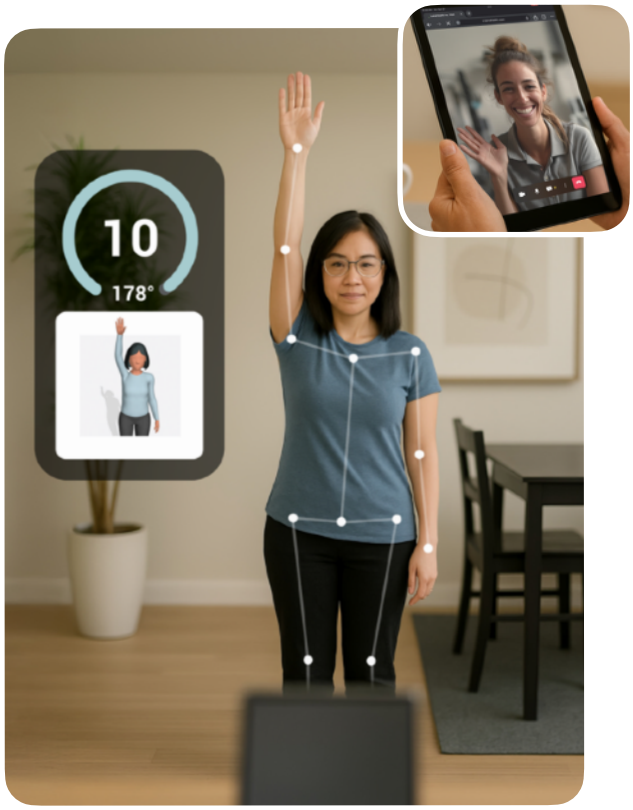
How it works

Simple, from referral to recovery

Scan to watch the overview video



Step 1

Meet your therapist

Begin with a face-to-face session, designing care around your goals, symptoms, and vision of recovery.

Step 2

Receive your personalized plan

Your therapist creates a custom recovery plan with interactive exercises and real-time guidance—anytime, anywhere.

Step 3

Get continuous support

Your therapist monitors your progress, adjusts your plan, and checks in regularly to keep recovery effective and responsive.

Step 4

Recover with convenience

One-click access, no downloads, available on any device without travel or wait times.
