IncludeHealth

# Accessible, Low-Cost Physical Therapy

Watch Overview

*"Great experience! Best therapy ever! Fantastic staff! Highly recommend!"*

## What is virtual physical therapy?

With virtual physical therapy, patients access high quality physical therapy with personalized exercises, real-time feedback, and the guidance of licensed therapists anywhere and at any time using their own devices.

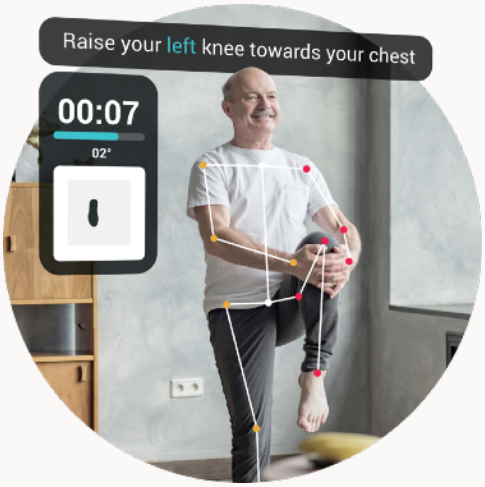
Wellness + Fall Prevention + Acute Care + Chronic Care Management

## What's included?

Patients receive expert care through their phone, tablet or laptop.

**No sensors, downloads or passwords required.**

- Dedicated Physical Therapist
- Personalized Care Plans
- Interactive & Measured Exercise Sessions
- Unlimited Secure Messaging



## Easy setup, easier access

**1. Schedule**
We reach out to patients via text or phone to schedule a video call evaluation with a dedicated physical therapist.

**2. Exercise**
Our physical therapists then create a tailored, interactive care plan for patients to complete at home and on their own time.

**3. Review**
Patient progress is shared with their physical therapist to update their plans and help them on their road to recovery.
